

ECONOMIC DEVELOPMENT AUTHORITY

Emerge Application

To learn about the EmERGE program, visit njeda.com/emerge

1. Welcome

You have reached the full application page for the NJ EmERGE program, a jobs-based tax credit program created under the Economic Recovery Act (ERA) of 2020.

The EmERGE program makes tax credits available to projects that invest private capital into New Jersey and create good-paying jobs, with a focus on the State's priority sectors.

To ensure a strong return on investment for New Jersey taxpayers, projects that receive tax credits under the EmERGE program must yield a minimum net positive economic benefit to the state of 200 to 400 percent depending on project location and the nature of the project. As an Applicant, you must also demonstrate that you are considering a viable out-of-state location for your project. The NJEDA will conduct due diligence, including reviewing a detailed cost comparison of the project's New Jersey and alternative sites, to verify the award of tax credits is a "material factor" in the business's decision to create or retain jobs in New Jersey.

Prior to starting this step, you should have completed a pre-application and conducted a pre-application meeting with an NJEDA EmERGE team member.

The full application requires detailed information and supporting documentation about your company, affiliates, and the proposed project for which you are applying for tax credits. Please be advised that the application fee is **non-refundable**.

It is highly recommended that you review the sample application on the EmERGE program website (www.njeda.com/emerge/) prior to starting the application in an effort to be prepared to provide the requested information.

The application is broken down into 15+ sections. You will not be able to proceed further into the application without completing all required fields and uploads within the current section. Progress on the application can be saved as you complete each section. At all times, you will be able to go back to sections that you have already completed.

The NJEDA EmERGE team will not begin our completeness review of your application until all required information has been provided, and the application fee has been received. After NJEDA staff deem your application complete, we will send an email certification to your CEO to confirm that all information

provided in the application is accurate. This certification must be signed under the penalty of perjury to move forward with a full application review.

This full application will take several hours to complete. Please read the prompts to questions carefully and provide professionally written responses that address all details requested in the questions in the suggested length of text.

It is highly recommended that you download a copy of the example application and collect written responses and required documents prior to filling them in on this online form.

In the event of any questions, please contact: emerge@njeda.com

- Aviation
- Autonomous Vehicle and Zero-emission Vehicle Research or Development
- Clean Energy
- Life Sciences

- Hemp Processing
- Information and High Technology
- Finance and Insurance

- The applicant company's core business is in a targeted industry
- The activity undertaken by the project's full-time employees will primarily be in a targeted industry
- The applicant's parent company is in a targeted industry
- The applicant, project, and applicant parent (if applicable) are not in a targeted industry

8. New Jersey Project Location

In this section, we will collect information about the New Jersey location that you are considering for your project.

Please use the following tool to look up details about your project's proposed address. These details (e.g., census tract) will help NJEDA determine the appropriate base tax credit level and bonuses that are applicable for your project.

If your project spans multiple locations (QBFs), blocks, lots, census tracts, etc., please provide the information that you think will be the future address of the project and provide additional details in the

9. New Full-Time Jobs at the New Jersey Project Location

Please provide information below on all new full-time jobs that will be created at the project location. New full time jobs should be reported below in aggregate across job positions, titles, or salary levels/level of position (i.e. entry-level vs executive level). For example, if the project intends to create 10 new Entry-level Accountant positions, please report a single entry for Position: Entry-level Accountant, Number of Full-Time Jobs: 10. Because we are asking for average salary data, please be mindful of salary levels/levels of positions when creating your entries – for example, an Entry-Level Accountant should not be part of the same line entry as the Chief Financial Officer, even though they both may have financial positions. If in doubt, please err on the side of creating additional rows of data to reflect differences in positions.

Please Note – In this section you should report new full-time jobs only. We will collect information regarding existing jobs that are at-risk of leaving New Jersey later in the application.

13. Award Timelines and Project Costs

In this section, we will collect information about the duration of your requested award and the project costs at your New Jersey and alternative locations.

Eligibility and Commitment Periods

To estimate your tax credit award NJEDA needs to determine your project's *Eligibility Period* and *Commitment Period*.

Your projects *Eligibility Period* will be the number of years that you wish to get tax credits. The Emerge Program allows eligible applicants to select an *Eligibility Period* of up to seven (7) years. The longer your eligibility period, the greater your total award size will be. However, longer Eligibility Periods will also necessitate a longer *Commitment Period* (see below). NJEDA expects that most applicants will request seven (7) year *Eligibility Periods*.

If approved for a tax credit, how many years would you like your Eligibility Period to be (i.e., for how many years would you like to receive tax credits)?

To estimate your project's *Total Project Comparison Costs* for the New Jersey and the Alternative location NJEDA needs to determine your *Commitment Period*, or how many years you intend to commit to keep your project in New Jersey. Your *Commitment Period* will also be a key input into your projects Net Benefit Analysis.

At a minimum, your project's *Commitment Period* must be one and a half times as long as your project's *Eligibility Period*, rounded up to the nearest full year. For example, if you selected seven years for your *Eligibility Period*, your *Commitment Period* will be seven multiplied by one and a half, which equals 10.5 years, rounded up to 11 years. Applicants can elect to extend their *Commitment Period* beyond the minimum to increase their calculated Net Benefit to the State (for example, to meet minimum program requirements or to potentially increase award size). *Commitment Periods* can be extended up to a maximum of 20 years (if an applicant provides evidence, such as a 20-years lease, to the NJEDA that it intends to keep the project in the State for longer). NJEDA expects most applicants will request *Commitment Periods* between 11 and 20 years.

If approved for a tax credit, how many years would you like your Commitment Period to be (i.e. how many years would you commit to keep your project in New Jersey for the purpose of calculating the project's benefit to the State)?

Project Costs

In this section, we will collect information about the project costs the applicant company expects to incur for the proposed project both at the New Jersey QBF or at the alternative location. NJEDA will use the below information for several different calculations, so please read these instructions carefully and be as thorough as possible in your answers to this section.

As part of our evaluation process, NJEDA will first review all cost estimates, both for the New Jersey location as well as the alternate project location for reasonableness. This evaluation will include looking at the applicant's justification and supporting documents. Please include relevant information on assumptions or how estimates were derived in the justification field for each category cost estimate. Please provide any supporting documentation that will help NJEDA staff validate these assumptions.

NJEDA staff may follow-up with applicants to get further information about any cost category that is not clearly justified or supported through documentation. Note: re-engaging with applicants to clarify cost estimates is one of the largest causes of application review delays. Providing clear, and where possible third-party document supported, cost justifications in your original application is one of the best ways to ensure timely processing of your application.

Upon validation of all costs, NJEDA will sum all of the one-time costs for the project in New Jersey. This total will be the projects *Total One-time Project Cost* estimate.

NJEDA will then compute a Net Present Value for all of the annual ongoing costs for the project in New Jersey for each of the years that that the applicant company is requesting to utilize as their project's *Commitment Period*. The result of this calculation will be the New Jersey project's *Total Ongoing Project Cost* estimate.

NJEDA will then calculate the *Total New Jersey Project Comparison Cost* by summing the *Total One-time*

Project Cost and the Total Ongoing Project Cost.

NJEDA will repeat this procedure for the Alternative Project Location to calculate the *Total One-time Alternative Project Cost*, the *Total Ongoing Alternative Project Cost*, and the *Total Alternative Project Comparison Cost* respectively.

See below for a full list of both one-time and ongoing costs and descriptions of each cost category.

Applicants should complete an entry for each cost category. If there are no associated projects costs in the category, please enter “0” in the value field and “N/A” in the justification field.

In cases where there are significant differences in the alternative site as compared to the New Jersey location that would significantly alter the cost basis for the two projects (e.g., if the applicant company was considering a 100,000 square foot Class A office facility in New Jersey and a 150,000 square foot Class B office facility in the alternative locations), please correct costs to create an “apples to apples” comparison. All adjustments should be made in the alternative location column and should be clearly explained in the justification field or in a supporting document.

NJEDA will also utilize the validated cost categories to determine the New Jersey project’s estimated *Eligible Capital Investment*. *Eligible Capital Investment* will be calculated using the following categories:

- Hard construction costs for new construction
- Hard construction cost for renovations, repairs, or improvements
- Remediation
- Demolition and site preparation
- Site-related utility and infrastructure improvements
- Permanent heavy machinery and equipment acquisition and installation
- Furniture, Fixtures and Office Equipment
- One-time technology infrastructure costs
- Landlord contributions
- Eligible project soft costs (may be up to 20% of the total of all above categories)

Finally, NJEDA will utilize the validated cost category information to determine the New Jersey project’s estimated *Hard Construction Cost*, which will be used as an input into the Net Benefit Analysis. *Hard Construction Cost* will be calculated using the following categories:

- Hard construction costs for new construction
- Hard construction cost for renovations, repairs, or improvements
- Remediation

- Demolition and site preparation
- Site-related utility and infrastructure improvements
- Landlord contributions

For example, calculate the terminal value the facility/site at the end of the projects commitment period; calculate the difference between the current fair market value (such as a sales price) and the terminal value; divide that difference by the total number of years in your commitment period, add in any relevant ongoing annual financing costs, and include that figure into this cost category; please provide a description of the methodology you are using in the justification field and support it with an attached document)

14. Project Bonus Criteria

In this section, we will collect information to help us determine the tax credit bonuses for your project is eligible.

The Emerge Program has several bonuses that can increase a projects annual per-job awards based upon factors such as the number of new jobs created, median salary of the new jobs, level of capital investment, etc. Eligibility for those bonus categories will be assessed by NJEDA based upon the information provided elsewhere in this application.

In addition, there are a number of policy-based bonuses that a project could receive. The following question will help NJEDA assess the eligibility of the proposed project for those policy-based bonuses. These bonus categories also enable NJEDA to provide higher award amounts through it's "Inducement Methodology" (i.e., when a project's New Jersey to alternative site cost gap is less than its calculated award).

Note, NJEDA staff will confirm that the applicant company has fulfilled the requirements of each bonus criteria awarded by the NJEDA Board during the project certification process (i.e., before any tax credits are awarded). Please indicate participation in bonuses that you reasonably believe that the applicant company will actually complete. Significantly over-estimating bonuses at approval may cause NJEDA to

re-run certain analyses, such as the net-benefit test, at certification.

Do you anticipate that the project will enter into a Labor Harmony Agreement for new or retained full-time employees involved in retail, distribution, or warehousing? Please distinguish between new/retained full-time employees at the QBF and new full-time employees outside of the QBF, and specifically how many in each group do you expect will enter into a Labor Harmony Agreement.

Yes

No

Please provide a 1–2 paragraph narrative description explaining this part of your project. In the description, please estimate the number of full-time new jobs and the number of full-time retained jobs that will be subject to the labor harmony agreement.

paid by the applicant company for the cost of child care?

Yes

No

Please provide a 1–2 paragraph narrative description explaining this part of your project. In the description, please provide details as to whether the child care will be on-site or a reimbursement/voucher-based model. 17. Prevailing Wage and Other Program Requirements

Construction and buildings services activities under Emerge are subject to New Jersey affirmative action and prevailing wage requirements. We want to make sure you are aware of this requirement.

Projects that have a total upfront project cost of at least \$10 million must enter into a community benefits agreement with NJEDA and the municipality in which the project is located. In some circumstances, the municipality may request that the relevant county enter into the agreement on the municipality's behalf. Certain other exceptions are possible when a project over \$10M in total upfront project cost is located at a site with an existing redevelopment agreement and the municipality or county certifies the NJEDA's Tax Credit Approval Letter.

For any questions about this requirement, please contact your NJEDA representative.

I have read the above statement and understand the Emerge Program's Community Benefit Agreement requirement.

Be advised that projects utilizing financial assistance for construction related costs are subject to state prevailing wage requirements. In addition, the Emerge Program also has prevailing wage requirements for building service workers.

If your application is approved all construction contracts related to this project must pay at least the relevant prevailing wage rate. This requirement will continue for two years after your first receipt of tax credits for those construction contracts subject to the New Jersey Prevailing Wage Act.

In addition, if your application is approved, all building service worker contracts (such as janitors, security guards, maintenance staff, etc.) must pay at least the relevant prevailing wage rate. This requirement will continue for the full commitment period of the project.

Effective April 1, 2020, any and all construction contracts awarded in New Jersey that require payment of prevailing wage must provide proof of valid Construction Contractor Registration Certification (CRC). The Act will not require contracts that were awarded prior to April 1, 2020 to provide proof of CRC. Bidders cannot list any subcontractors in any bid proposal unless the subcontractor is registered. Information regarding this Act can be found on the New Jersey Department of Labor's Website.

If you have any questions about these requirements, please contact your NJEDA representative before submitting this application.

I acknowledge that any construction on this project is subject to Prevailing Wage.

I acknowledge that any building services on this project is subject to Prevailing Wage.

I acknowledge that any contractor working on this project must be registered with the New Jersey Department of Labor (DOL) prior to the start of construction.
