1.2.1 NEW JERSEY WIND PORT

NJEDA is financing, developing and provisioning for the ongoing operation of the New Jersey Wind Port (NJWP, "Port") on behalf of the State of New Jersey. A purpose-built offshore wind marshall and manufacturing hub, the NJWP will support the on-time and cost-effective delivery of New Jersey's 11 gigawatt (GW) pipeline, as well as the U.S. East Coast's broader 40GW pipeline. Located on the eastern shore of the Delaware River in Lower Alloways Creek, Salem County, the

NJWP has a developable footprint of over 220 acres. Approximately 112 acres is on land NJEDA is leasing from NDEV LLC (“Head Landlord”) as part of a tripartite Ground Lease agreement that includes PSEG Nuclear, LLC (“Nuclear”) – the operator of the nuclear power plant facilities adjacent to the property that NJEDA has leased for the Port. The Ground Lease has a term of up to 78 years. The remainder of the site, approximately 110 acres known as “Parcel B”, is owned outright by NJEDA. The Port has direct access to the Atlantic Ocean via the Delaware River shipping channel and transit is free of any bridge or other overhead restrictions, enabling Wind Turbine Installation Vessels (“WTIV”) use. The Port will be a multi-tenant facility where developer and turbine manufacturing tenants will occupy expansive upland Parcels designed for the marshaling, fabrication and storage of turbine components for offshore installation. Dedicated Marine Terminal areas, comprising multiple heavy-lift installation and delivery berths, will support the vessel loading and unloading of turbine components and subcomponents.

The Wind Port is not separate from the NJEDA as a public entity and has its own General Liability and Umbrella coverages with the NJEDA being named insured.

The NJWP Complex will comprise both Maritime Transportation Related (“MTR”) areas and non-MTR areas. **MTR** areas, which are comprised of Parcel A, Parcel B1, and various other parcels, will include a power substation, administrative offices, security offices, local server room, other security features, which may be located within Non-MTR areas. Non-MTR areas are comprised of Parcels C, G1, G2, G3, and B2. These Parcels will primarily contain manufacturing and assembly facilities for offshore wind turbine components, storage facilities, and laydown areas. Office space will tentatively be situated on Parcel C or D. In addition, Parcel D will contain a parking lot for tenants and port users and is currently being used as a staging area for construction of an electrical transmission line to connect the NJWP to the grid. Parcel E will encompass a Confined Disposal Facility (“CDF”). See Exhibit 1 (Port Site Map) for an illustrative representation of the Port.

The NJWP is being developed as a maritime and industrial Complex exclusively for offshore wind related uses. The Port is being constructed in two (2) phases- Development Phase 1 and Development Phase 2. Which is described below

- (a) **Development Phase 1**, segments of which are currently under construction with other segments undergoing detailed design, is comprised of:
- (i) Parcel A
 - An approximately 30-acre Parcel for offshore wind marshaling and temporary storage of inbound and outbound cargo;
 - Wharf infrastructure comprising 1) an installation berth purpose-built for the marshaling and vessel loading of offshore wind components destined for installation offshore, and 2) a delivery berth designed for inbound delivery of offshore wind components, subcomponents and support equipment, and the outbound delivery of offshore wind components;
 - The construction on Parcel A is targeted to be completed in Q2 2024;
 - (ii) Access Channel - Dredging of an access channel connecting the Port Complex to the main Delaware River shipping channel, as well as a turning basin and berth pockets capable of accommodating jack-up WTIVs, feeder barges and ocean-going vessels; the construction of the access channel for Parcel A is complete; dredging for Parcel B1 and B2 shall be completed at a later date.
 - (iii) Parcel D – An approximately 5-acre Parcel dedicated to general port administration purposes and parking, including administrative and parking spaces available for the Operator; the construction of the heavy haul road is targeted to be completed in Q4 2024;

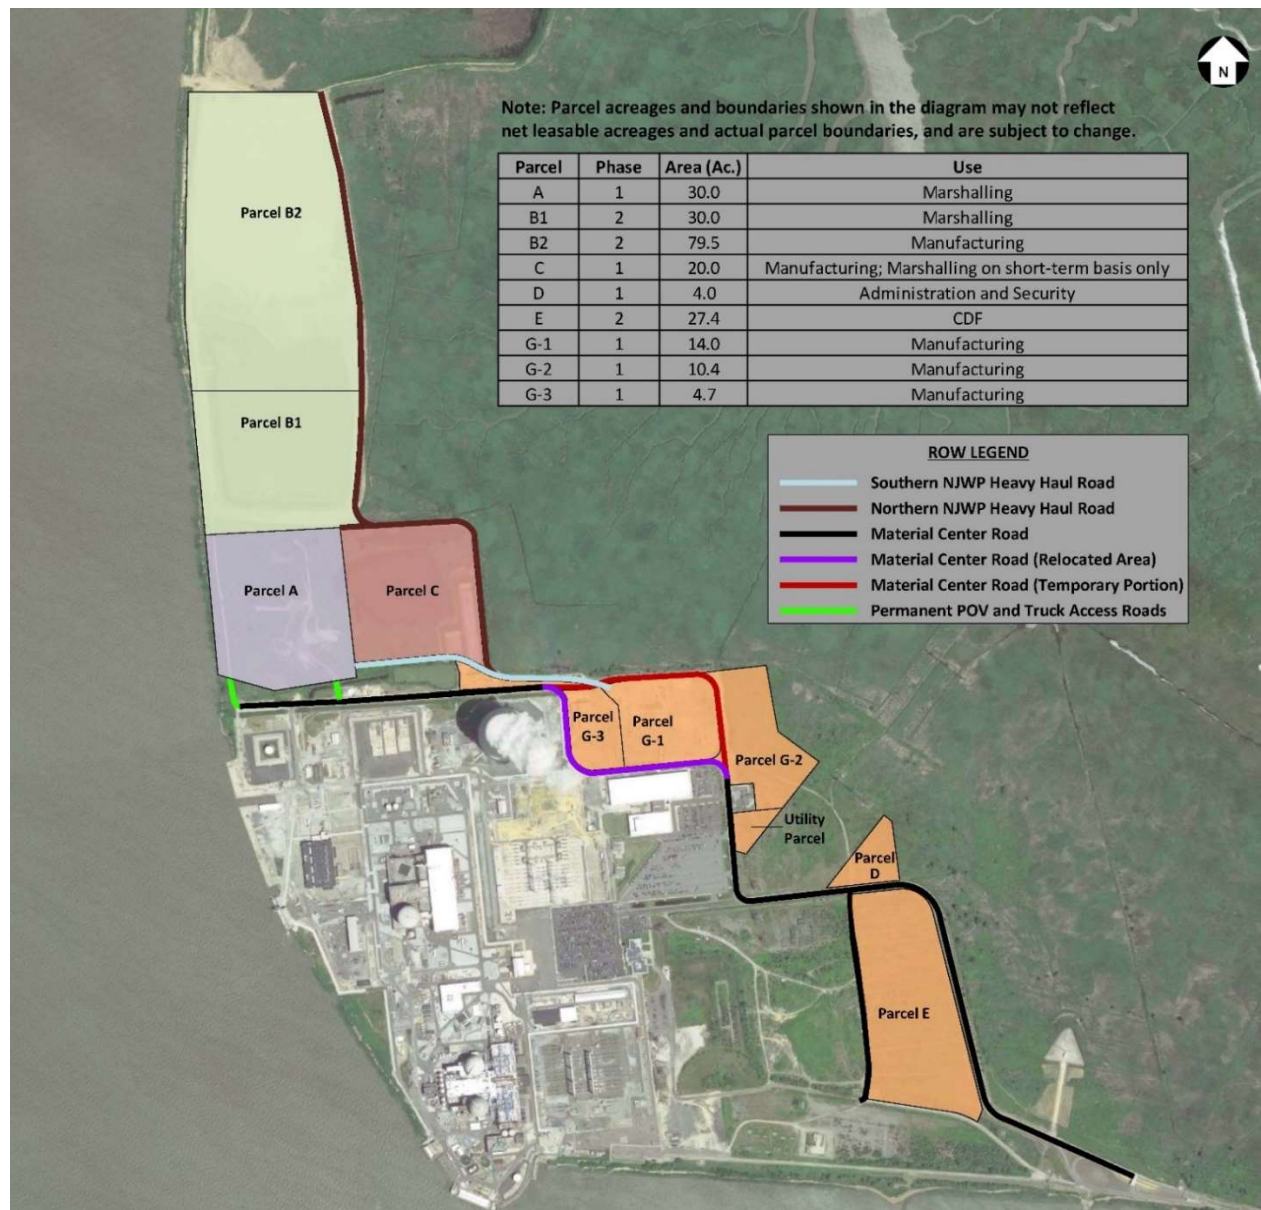

- (iv) Parcel E – An approximately 30-acre CDF for dredge placement; the construction of the heavy haul road is targeted to be completed in Q4 2024; and
- (v) Utilities - On-site utility (power, water, sewer, telecommunications) infrastructure and grid connections; the construction of these utility assets is targeted to be completed in 2024.

(b) **Development Phase 2**, which is currently in the detailed design stage, will comprise:

- (i) Parcels C, G1, G2, and G3 – Approximately 54 acres of property purpose-built for the manufacturing of Tier 1 offshore wind components, connected to Parcel A by a heavy haul road corridor; the construction of these Parcels is targeted to be completed in 2026;
- (ii) Parcel B1
 - An approximately 35-acre Parcel for offshore wind marshaling and temporary storage of inbound and outbound cargo;
 - Wharf infrastructure comprising (1) an installation berth purpose-built for the marshaling and vessel loading of offshore wind components destined for installation offshore, and (2) a delivery berth designed for inbound delivery of offshore wind components, subcomponents and support equipment, and the outbound delivery of offshore wind components;
- (iii) Parcel B2 – An approximately 65-acre property purpose-built for the manufacturing of Tier 1 offshore wind components, connected to Parcel B1 and Parcel A by a heavy haul road corridor (the Operator shall not perform any Services on or related to Parcel B2);
- (iv) Utilities and Infrastructure - Additional utility infrastructure (power, water, sewer, telecommunications) infrastructure and grid connections; and
- (v) Heavy Haul Road - Additional heavy haul road corridor infrastructure connecting upland manufacturing Parcels with delivery berths.

Development Phase 2 is targeted to commence in late 2024. Construction of Parcel B1 is anticipated to be completed in mid to late 2026, with construction of the balance of Development Phase 2 anticipated to be completed in 2028-29.

The written withdrawal request must be signed and submitted by a duly authorized representative of the Proposing entity to be valid.

After the Proposal submission opening, while pursuant to the provisions of this section, the Proposer may request to withdraw the Proposal and the Authority may, in its sole discretion allow the Proposer to withdraw it, the Authority also may take notice of repeated or unusual requests to withdraw by a Proposer(s) and take those prior requests to withdraw into consideration when evaluating the Proposer(s) future bids or Proposals.

If during a Proposal evaluation process an obvious pricing error made by a potential Contract awardee is found, the Authority shall issue written notice to the Proposer(s). The Proposer(s) will have five (5) days after receipt of the notice to confirm its pricing. If the Proposer fails to respond, its Proposal shall be considered withdrawn, and no further consideration shall be given it.

If it is discovered that there is an arithmetic disparity between the unit price and the total extended price, the unit price shall prevail. If there is any other ambiguity in the pricing other than a disparity between the unit price and extended price and the Proposer's intention is not readily discernible from other parts of the Proposal, the Procurement Department may seek clarification from the Proposer(s) to ascertain the true intent of the Proposal.

6.0 PROPOSAL EVALUATION

6.1 RIGHT TO WAIVE

The Authority reserves the right to waive minor irregularities or omissions in a Proposal. The Authority also reserves the right to waive a requirement provided that:

- A. the requirement is not mandated by law;

6.2 RIGHT OF FINAL PROPOSAL ACCEPTANCE

The Authority reserves the right to reject any or all Proposals, or to award in whole or in part if deemed to be in the best interest of the Authority to do so. The Authority shall have the power to award orders or contracts to the Proposer best meeting specifications and conditions.

6.3 RIGHT TO INSPECT PROPOSER'S FACILITIES

The Authority reserves the right to inspect the Proposer establishment before making an award, for the purposes of ascertaining whether the Proposer has the necessary facilities for performing the Contract.

The Authority may also consult with clients of the Proposer during the evaluation of bids. Such consultation is intended to assist the Authority in making a Contract award which is most advantageous to the Authority.

6.4 RIGHT TO REQUEST FURTHER INFORMATION

The Authority reserves the right to request all information which may assist it in making a Contract award, including factors necessary to evaluate the Proposer financial capabilities to perform the Contract. Further, the Authority reserves the right to request a Proposer to explain, in detail, how the Proposal price was determined.

6.5 PROPOSAL EVALUATION COMMITTEE

Proposals may be evaluated by a cross-functional Evaluation Committee composed of the Authority's staff, management, NJEDA Subject Matter Experts (SMEs) and possibly other state agencies and/or industry experts, who may assist with the evaluation but will not be voting members. 6.6 ORAL PRESENTATION AND/OR CLARIFICATION OF PROPOSAL

After the submission of Proposals, unless requested by the Authority as noted below, Proposer contact with the Authority is still not permitted.

After the Proposals are reviewed, one, some or all of the Proposers may be asked to clarify certain aspects of their Proposals. A request for clarification may be made in order to resolve minor ambiguities, irregularities, informalities or clerical errors. Clarifications cannot correct any deficiencies or material omissions or revise or modify a Proposal, except to the extent that correction of apparent clerical mistakes results in a modification.

The Proposer may be required to give an oral presentation to the Authority concerning its Proposal.

Proposer may not attend the oral presentations of their competitors.

It is within the Authority's discretion whether to require the Proposer(s) to give an oral presentation or require the Proposer(s) to submit written responses to questions regarding its Proposal. The Procurement department will be the sole point of contact regarding any request for an oral presentation or clarification.

6.7 EVALUATION CRITERIA

The following evaluation criteria categories, not necessarily listed in order of significance, will be used to evaluate Proposals received in response to this RFP. The evaluation criteria categories may be used to develop more detailed evaluation criteria to be used in the evaluation process.

6.7.1 QUALIFICATIONS/EXPERIENCE EVALUATION CRITERIA

- A. Personnel: The qualifications and experience of the Proposer's management, supervisory, and key personnel assigned to the Contract, including the candidates recommended for each of the positions/roles required.
 - 1. If key personnel are identified and required in Section 3.0 of this RFP, the Proposer **must** submit a resume for each key position and the Proposer's resumes **must** include: Name of Proposed Person, Current Position/Description of Role, Previous Relevant Position(s)/Description(s) of Role(s), and three (3) business references associated with any of the named relevant positions. Business references **must** include a Contact Name, Job Title, Daytime Telephone Number and an E-mail Address. Failure to submit mandatory resumes and full references' details **will result in rejection** of the Proposer's Proposal for further consideration.
- B. Experience of entity: The Proposers documented experience in successfully completing contracts of a similar size and scope in relation to the work required by this RFP, based, in part, on the Proposer's submitted narratives and references.
 - 1. If references for contracts of similar size and scope are required in Section 3.0 of this RFP, the Proposer **must** submit business references for each relevant contract. Business references **must** include a Contract Name/Description of Contract, Contact Name, Job Title, Daytime Telephone Number and an E-mail Address. Failure to submit mandatory contract details and full references' details **will result in rejection** of the Proposer's Proposal for further consideration.
- C. Ability of the entity to complete the Scope of Work based on its Technical Proposal: The Proposers demonstration that the Proposer understands the requirements of the Scope of Work and presents an approach that would permit successful performance of the technical requirements of the Contract. Proposer's turnaround timeframes are critical and will be closely evaluated for both content and completion timeframes.

6.7.2 PROPOSER'S FEE SCHEDULE

For evaluation purposes, Proposer's pricing will be ranked and weighted according to the lowest total price for all services, per the Fee Schedule accompanying this RFP.

Hourly rates, per the Fee Schedule, will be used for any additional work that might be required during the Contract time frame, not specified in the original Scope of Work.

1. Proposers shall not alter this Fee Schedule and must provide pricing for all sections. Failure to submit pricing for all sections or altering the form will result in the Proposal being rejected as nonresponsive.
2. Proposers shall not indicate fees/charges other than those included on this Fee Schedule. If the Proposer intends to assess additional fees it should address this by submitting an inquiry during the Question and Answer period for this RFP.
3. If the Proposer will supply an item on a price line free of charge, the Proposer must indicate "No Charge" on the Authority-supplied Fee Schedule accompanying this RFP solicitation. The use of any other identifier may result in the Proposer's Proposal being deemed non-responsive.

6.7.3 PROPOSAL DISCREPANCIES

In evaluating Proposals, discrepancies between words and figures will be resolved in favor of words. Discrepancies between unit prices and totals of unit prices will be resolved in favor of unit prices. Discrepancies in the multiplication of units of work and unit prices will be resolved in favor of the unit prices. Discrepancies between the indicated total of multiplied unit prices and units of work and the actual total will be resolved in favor of the actual total. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum of the column of figures.

6.7.4 EVALUATION OF THE PROPOSALS

After the Evaluation Committee completes its evaluation, it recommends to the Authority an award to the responsible Proposer whose Proposal, conforming to this RFP, is most advantageous to the Authority. The process considers and assesses price, technical criteria, and other factors during the evaluation process before a recommendation is made. The Authority may accept, reject or modify the recommendation of the Evaluation Committee. Whether or not there has been a negotiation process as outlined in Section 6.8 below, the Authority reserves the right to negotiate price reductions with the selected Proposer(s).

6.8 NEGOTIATION AND BEST AND FINAL OFFER (BAFO)

After evaluating Proposals, the Authority may enter into negotiations with one Proposer or multiple Proposers. The primary purpose of negotiations is to maximize the Authority's ability to obtain the best value based on the mandatory requirements, evaluation criteria, and cost. Multiple rounds of negotiations may be conducted with one Proposer or multiple Proposers. Negotiations will be structured by the Procurement department to safeguard information and ensure that all Proposers are treated fairly.

Similarly, the Procurement department may invite one Proposer or multiple Proposers to submit a best and final offer (BAFO). Said invitation will establish the time and place for submission of the BAFO. Any BAFO that is not equal to or lower in price than the pricing offered in the Proposer's

original Proposal will be rejected as non-responsive and the Authority will revert to consideration and evaluation of the Proposer's original pricing.

If required, after review of the BAFO(s), clarification may be sought from the Proposer. The Procurement department may conduct more than one round of negotiation and/or BAFO in order to attain the best value for the Authority.

After evaluation of Proposals and as applicable, negotiation(s) and/or BAFO(s), the Procurement department will recommend the responsible Proposer whose Proposal(s), conforming to the RFP, is/are most advantageous to the Authority, price and other factors considered. The Authority may accept, reject or modify the recommendation of the Procurement department. The Procurement department may initiate additional negotiation or BAFO procedures with the selected Proposer(s).

Negotiations will be conducted only in those circumstances where they are deemed to be in the Authority's best interests and to maximize the Authority's ability to get the best value. Therefore, the Proposer is advised to submit its best technical and price Proposal in response to this RFP since the Authority may, after evaluation, recommend a Contract award based on the content of the initial submission, without further negotiation and/or BAFO with any Proposer.

All contacts, records of initial evaluations, any correspondence with Proposer related to any request for clarification, negotiation or BAFO, any revised technical and/or price Proposals, the Evaluation Committee Report and the Award Recommendation, will remain confidential until the Contract is awarded and a Conditional Notice of Intent to Award a Contract is issued.

NOTE: If the Authority contemplates negotiation, Proposal prices will not be publicly read at the Proposal submission opening. Only the name and address of each Proposer will be publicly announced at the Proposal submission opening.

6.9 PROTEST OF RECOMMENDED AWARD

Any Proposer may protest a vendor selection (an award) by the New Jersey Economic Development Authority. In order for a protest to be timely, it must be submitted to the Senior Vice President – Business Support within ten (10) business days of receipt of the notification that the Proposer was not selected. In order to be considered complete, a protest must: (i) identify the Proposer that is submitting the protest, (ii) identify the Contract award that is being protested, (iii) specify all grounds for the protest (including all arguments, materials and/or documents that support the protest); and, (iv) indicate whether an oral presentation is requested, and if so, the reason for the oral presentation. A Hearing Officer will be designated by the Authority's Senior Vice President – Business Support. The designated Hearing Officer will review all timely and complete Vendor protests and will have sole discretion to determine if an oral presentation by the protester is necessary to reach an informed decision on the matter(s) of the protest.

After completing his or her review of the protest, the Hearing Officer will prepare a preliminary report, which shall be advisory in nature and not binding, and send to the Protestor. Should the Protestor dispute the findings of the preliminary "*Hearing Officer Report*", it will be afforded an "*Exceptions Period*" equal to ten (10) business days from the Authority's issuance of the preliminary "*Hearing Officer Report*" to refute the findings of the Hearing Officer. At the expiration of the exceptions period, the Hearing Officer will review any "*Exceptions to the Hearing Officer's Report*" and finalize his or her report.

The Hearing Officer will make a recommendation in his or her final "*Hearing Officer Report*" which will be sent with any "*Exceptions to the Hearing Officer's Report*" to either the Authority's Board or the Authority's Chief Executive Officer, as determined by the dollar amount of the potential award

as it relates to the Authority's internal Operating Authority Approval Levels, for a final decision to award the Contract. The Authority's Board of Directors or Chief Executive Officer will review the final "*Hearing Officer Report*" and the protestor's "*Exceptions to the Hearing Officer's Report*" and shall render a final decision regarding the appropriateness of the award. The action of the Authority's Board or Chief Executive Officer to make a final decision for the award of the Contract will be a final Authority action that is appealable to the Appellate Division of the Superior Court of New Jersey.

It is the Authority's intent not to award the Contract until it has completed all of the review procedures described above. If, however, in the Authority's sole discretion, it is determined that such an award is necessary to support the uninterrupted and efficient business operations of the Authority the Contract may be awarded.

7.0 CONTRACT AWARD

Contract award(s) shall be made in whole or in part, with reasonable promptness by written notice to the highest ranked responsible Proposer, whose proposal, conforming to this RFP, is most advantageous to the Authority, price, and other factors considered, as determined by the Authority, in its sole discretion. Any or all proposals may be rejected when the Authority determines that it is in the public interest to do so.

It is the policy of the New Jersey Economic Development Authority that to be considered for award, a Proposer must achieve or exceed an overall score of three ("3") indicating a rating of "Good", on a scale of 1-5 with 5 being the highest rating. The Authority shall be under no obligation to make an award to an entity which does not achieve this minimum scoring threshold.

Award of a Contract for the services outlined in this RFP will be subject to the selected entity entering into the "Contract for Professional Service", attached to this RFP as Exhibit A. Proposers are encouraged to carefully review the specimen Contract and should indicate any exceptions taken to the form of Contract during the "Questions and Answers Period."

The Proposer is cautioned that it shall not impose conditions under which it will conduct business with the New Jersey Economic Development Authority by submitting its own separate and distinct company "Standard Terms and Conditions", engagement letters, agreement(s) or forms in response to this section requirement. The Proposer shall not submit its "Standard Terms and Conditions" or submit material revisions and/or exceptions to the "Contract for Professional Services" with the proposal as it will result in the proposal being deemed non-responsive.

IMPORTANT: In the event the Proposer takes exception to one (1) or more points within the Contract; it shall submit its "exceptions" in the form of a question to be submitted for consideration during the "Questions and Answers Period" established for this solicitation. The Authority shall not consider any questions, exceptions or requests for changes to be made to the specimen Contract at any time during the RFP process, unless submitted during the "Questions and Answers Period".

The Authority shall be under no obligation to grant or accept any requested changes (i.e. exceptions taken) to the specimen form of the Contract (Exhibit A) during the "Questions and Answers Period."

Any proposal submitted in response to this RFP will be considered a firm Offer by the responding Proposer to perform the Scope of Work, as outlined in the RFP and specimen Contract. By submitting an Offer in response to this RFP, the responding Proposer agrees to hold its Offer open for at least one hundred twenty (120) days after the response due date. Any provision in a submitted Offer that attempts to limit or condition the time that an Offer is open for consideration by the Authority will not be binding on the Authority.

Accordingly, any proposals submitted will indicate an acceptance by proposers of the form of Specimen Contract.

Acceptance of a proposal and award of a Contract is subject to the approval of the Authority's Board.
