Check Your Business Standing in Two Simple Steps

First, review your registration status. If you operate a corporation, limited liability company or limited partnership, in order to maintain active registration status with the State, you must keep your annual reports up to date. If your business reflects as Active, nothing further is required in this area. If you see an indication that annual reports are missing or that your business is revoked for non-compliance with annual reporting, follow the instruction to remedy the issue.

Next, check your tax status by clicking on the Schedule of Liabilities and Pay Taxes buttons to see if you have any outstanding returns or overdue payments, and if required, use our filing and payment services to remedy the issue(s).

1. Registration Status: **Active** 

2. Tax Status:
