Purpose and Overview

On March 8, 2025, Governor Murphy issued Executive Order 383 declaring a state of emergency following geophysical hazards created along eastbound Interstate 80 (“I-80”) in Morris County, New Jersey due to sinkholes, resulting in the temporary closure of a portion of the roadway. In response, the Program was originally created to provide short-term financial support for small and medium-sized businesses in Morris County experiencing decreased revenue due to reduced customer access and disrupted supply chains.

The amendment to this Program expands eligibility to businesses that are not located in Morris County. The Program will provide grants from \$1,000 up to \$15,000 to New Jersey-

based small and medium-sized enterprises that have suffered a negative financial impact as a result of the Route 80 closures and are located within 5 miles of the Exit 34 closures, regardless of the county where the business is located.

Funding Source

The total funding available for the Program is up to **\$5.5 million** allocated from the Economic Recovery Fund (“ERF”).

The total funding and award amount are based upon current information about funding availability. NJEDA reserves the right to increase that amount and number of awards should additional funds become available.

Eligible Applicants

Eligible applicants for the Program are small and medium-sized enterprises (“SMEs”) with up to 50 full-time equivalent employees (“FTEs”) that have a **physical commercial location within a 5 mile radius of Exit 34 on Route 80 in New Jersey.**
