

New Jersey Angel Investor Tax Credit Program

Investors can receive **tax credits** worth up to **\$500,000** by investing in eligible **Emerging Technology Businesses**.

Tax credits amount **increased to 35%** of qualified investment for applications **submitted after 12/31/25**

Tax Credit **can increase to 40%** if the business is

- MBE/ WBE certified **or**
- Located in a qualified Opportunity Zone **or**
- Located in a New Markets Tax Credit census tract.

Program Details:

New Jersey's Angel Investor Tax Credit encourages investment in emerging technology companies by offering tax credits to qualifying investors. Taxpayers investing in qualifying New Jersey emerging technology businesses may be eligible for a tax credit against New Jersey corporation business or New Jersey gross (Personal) income tax.

Available Tax Credit of **up to \$500,000**:

Thirty-Five percent (35%) of the qualified investment made in a New Jersey emerging technology business, with potential increase to forty percent (40%) of the qualified investment if the emerging NJ technology business is a certified minority business enterprise (MBE) or women business enterprise (WBE), or is located in a qualified Opportunity Zone or New Markets Tax Credit census tract.

Up to \$25 million of Angel Investor Tax Credit may be approved per calendar year. Additionally, the value of any unused tax credits from the Technology Business Tax Certificate Transfer (NOL) Program shall be added to increase this maximum cumulative total annually.

Applicants have **six months** from **date of investment** to apply:

This is a dual application consisting of an investor section and a technology company section. The investor starts the application. An application is not considered submitted until both the investor and technology company representative have completed and submitted their respective sections. This includes paying the non-refundable application fee by the investor.

Eligible Companies are NJ based, under 150 employees and working in certain sectors:

Has as its primary business an eligible technology as listed below

 LIFE SCIENCES	 ADVANCED MATERIALS
 MEDICAL DEVICE TECHNOLOGY	 ADVANCED COMPUTING
