A Proposer may submit an offer under one or more of the following structures:

1. **Fee Simple Purchase:** Purchase of the Property with transfer of fee simple title at closing; or
2. **Ground Lease with Mandatory Purchase:** A long-term Ground Lease with a required Purchase of the Property exercised at or before the end of the term; or

The selected Respondents will be required to enter into either (i) Purchase and Sale Agreement and Development Agreement of the Property, or (ii) a Ground Lease, with mandatory Purchase option, each will be in a form satisfactory to NJEDA, herein referred to as both the “Real Estate Transaction Agreement(s)”. The maximum Ground Lease Term and Ground Lease Payment Period is not to exceed 50 years.

Respondents shall assume that annual base rent increases by 2.00 percent each year during the Ground Lease term. However, Respondents are advised that the Ground Lease will provide that

e. Proposal Evaluation Committee

Proposals may be evaluated by an Evaluation Committee composed of the NJEDA's staff and management and possibly other state agencies and/or industry Subject Matter Experts (SMEs) to evaluate, score and rank Proposals received in response to this RFQP, and the criteria established herein.

f. Evaluation Criteria and Explanation of Scoring

Selection of the successful Respondent will be based upon determination of which Proposal is the most favorable to the NJEDA, considering the criteria listed below, price and other factors considered. The categories may be further refined by NJEDA for evaluation use. Maximum score is 100.

The following evaluation criteria categories, not necessarily listed in order of significance, will be used to evaluate Proposals received in response to the RFQP:

Criterion 1: Purchase and/or Ground Lease Price

- Weight: 30%
- Objective: Ensure that the public receives a fair and competitive return for the disposition of the Property.

- Evaluation Method: The Purchase price or net present value Ground Lease payments will be ranked from highest to lowest as follows: Higher Purchase prices or Ground Lease present value (NPV) receive higher scores; lower values receive lower scores. Note all financial offers, will be evaluated on a net present value (NPV) basis using a minimum discount rate of 10.00 percent, as of the RFQP submission date.

Criterion 2: Realistic and Feasible Project Plan

- Weight: 10%
- Objective: The Project Plan must be realistic and feasible from a real estate development and operating standpoint. Project Plans must be consistent with the RFPQ, Linden's Redevelopment Plan and the rules and regulations of the proposed financing.
- Evaluation Method: Higher scores will be given to Project Plans that are consistent with the Redevelopment Plan, abide by the most current NJHMFA's Total Development Cost (TDC) Limits and NJHMFA's most current Multifamily Operating Expense Minimums, consistent with TOD objectives, and comply with RFQP guidelines.

Criterion 3: Achievable and Sustainable Financing

- Weight: 10%
- Objective: Ability to secure financing and sustain the proposed Project, ensuring the Project can advance from closing and construction to long-term operation.
- Evaluation Method: Higher scores will be awarded to projects that demonstrate reasonably available and accessible capital and operating income sources designated to support the proposed use and Project Plan. Respondents must describe experience in securing these funds and include a financing schedule noting major financing milestones, i.e., dates applications are due, dates of award and anticipated closing.

Criterion 4: Project Schedule, Replacement Parking Plan, Compliance with Municipal Land Use and NJT Reserved Rights

- Weight: 10%
- Objective: Provide a detailed project development lifecycle schedule from execution of Real Estate Transaction Agreement through rent up. Provide list of anticipated municipal land use variances required for the Project and a description of how the Project will comply with NJT Reserved Rights specifically, how the proposed project will meet the parking obligations set forth by the municipality AND provide for the replacement of Commuter Parking.
- Evaluation Method: The evaluation will consider the Respondent's ability to comply with existing zones, land use, and the applicable Project Plan, with minimal or no deviations. The Project's financial viability should not depend on excessive and/or aggressive variances or

exceptions to the Project. Project Plans with fewer variances shall score higher. Respondents must demonstrate that any proposed variances to local zoning or development requirements are reasonable and likely to be approved by the municipality and if relevant, provide evidence of prior variances for similar projects of comparable scope and scale.

For any required approvals, Respondents should acknowledge potential requirements and delays and include strategies to mitigate them. A Gantt chart outlining the anticipated approval and development timeline is encouraged. Preference will be given to Projects that demonstrate early stakeholder engagement, effective community coordination, and readiness for implementation.

NOTE: Respondents are strongly encouraged to review and understand the Property's applicable Proposal prior to submission.

Criterion 5: Affordable Housing Inclusion

- Weight: 5%
- Objective: The Property shall be subject to affordability restrictions for a minimum of five years, or longer if required by any State-provided funding or subsidy sources utilized by the Respondent (including, but not limited to, LIHTC, NJ Aspire, or similar programs). Respondents must identify all anticipated subsidy sources and specify the associated affordability requirements and compliance periods. If affordability requirements conflict the stricter of the two sets of regulations shall apply.
- Evaluation Method: Higher scores are awarded for providing affordable housing beyond the minimum requirement of 20% of total units reserved for low- and moderate-income households.

Criterion 6: Sustainable Design & Energy Efficiency

- Weight: 5%
- Objective: Demonstrate ability to use and implement low-carbon building strategies that reduce long-term utility and environmental costs. Proposals that align with recognized standards (LEED, ENERGY STAR, NJ Clean Energy/Pay for Performance, NJBPU MUD EV Charger Program, NJDEP It Pay to Plug In, etc.) will receive a higher score. Emphasis is made to distinguish between Proposals that merely mention sustainable design and those that implement strategies, efficiency, renewable energy, and utility cost savings into the project's infrastructure (i.e., supporting affordability, resilience, and environmental awareness).

Respondents may review NJEDA's Green Building Standard's publication (document hyper link, [here](#)) for further perspective.

- Evaluation Method: Provides clear sustainability strategy, including modeling/energy analysis, specification of high-efficiency systems, envelope improvements, renewable energy

integration, and alignment with recognized standards and certifications (e.g. LEED, ENERGY STAR, NJ Clean Energy P4P).

Criterion 7: Developer and Management Team Experience

- Weight: 30%
- Objective: Provide relevant Project experience comparable in geography, size, scale, and complexity to the subject site. Additionally, provide teams with experience in the operations and property management of the Project.
- Evaluation Method: Assessment of the Project development team successfully completing and managing TOD, mixed income and multifamily projects of similar size, complexity and financial structure.

Higher points are awarded to teams with greater experience of development and managing similar projects.

g. Minimum Proposal Eligibility Criteria

i. Respondent's Experience

The Respondent shall submit a narrative describing the Respondent's firm, its history and operations, and the Respondent's real estate development experience, within the last five (5) years, which includes developing at least one project of similar size and scope sufficient to demonstrate its qualifications to develop the "Proposed Use of the Property" it will describe in response to Section 7.2.1 in its Proposal. For the purposes of this RFQP, "similar size and scope" means a project of the same square footage, within plus or minus 10% of the square feet of Proposed Use of the Property, along with the required parking and other improvements.

NOTE: If the Proposal DOES NOT include the Respondent's experience, the Proposal will be deemed non-compliant, and it will not be scored.

h. Proposal Discrepancies

In evaluating Proposals, discrepancies between words and figures will be resolved in favor of words. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum of the column of figures.

i. Evaluation of Proposals

The Evaluation Committee considers and assesses price, technical criteria, and other factors during the evaluation process. After the Evaluation Committee completes its evaluation, the Real Estate Development Division will recommend to the Senior Vice President a contract award to the responsible Respondent(s) whose Proposal, conforming to this RFQP, is most advantageous to the NJEDA, price and other factors considered.

j. Negotiations and Best and Final Offers (BAFO)

Following evaluation of Proposals, the NJEDA may, in its sole discretion, enter into negotiations and/or request best and final offers (BAFOs) from one or more Respondents to maximize value, with the ability to conduct multiple rounds and seek clarifications as necessary. Negotiations and BAFOs will be structured to ensure fairness and confidentiality; however, Respondents are advised to submit their best technical and price Proposal initially, as the NJEDA may make an award without further discussions, and pricing will not be made public if negotiations are contemplated.

k. Recommended Award

After evaluation of Proposal and as applicable, negotiation(s) and/or BAFO(s), the Real Estate Development Division will recommend, to the Vice President, the responsible Respondent whose Proposal, conforming to the RFQP, is/are most advantageous to the NJEDA, price and other factors considered. The Vice President may accept, reject or modify the recommendation of the Real Estate Development Division. The Real Estate Development Division may initiate additional negotiation or BAFO procedures with the selected Respondent(s).

l. Protest of Recommended Award

Any Respondent may protest a selection (an award) by the New Jersey Economic Development Authority NJEDA. In order for a protest to be timely, it must be submitted to the Chief Administrative Officer within ten (10) business days of receipt of the notification that the Respondent was not selected. In order to be considered complete, a protest must: (i) identify the Respondent that is submitting the protest (“Protestor”), (ii) identify the contract award that is being protested, (iii) specify all grounds for the protest (including all arguments, materials and/or documents that support the protest); and, (iv) indicate whether an oral presentation is requested, and if so, the reason for the oral presentation. A Hearing Officer will be designated by the NJEDA’s Chief Administrative Officer. The designated Hearing Officer will review all timely and complete Respondent protests and will have sole discretion to determine if an oral presentation by the Protester is necessary to reach an informed decision on the matter(s) of the protest.

After completing his or her review of the protest, the Hearing Officer will prepare a preliminary report, which shall be advisory in nature and not binding, and send to the Protestor. Should the Protestor dispute the findings of the preliminary “Hearing Officer Report,” it will be afforded an “Exceptions Period” equal to ten (10) business days from the NJEDA’s issuance of the preliminary “Hearing Officer Report” to refute the findings of the Hearing Officer. At the expiration of the exceptions period, the Hearing Officer will review any “Exceptions to the Hearing Officer’s Report” and finalize his or her report.

The Hearing Officer will make a recommendation in his or her final “Hearing Officer Report” which will be sent with any “Exceptions to the Hearing Officer’s Report” to either the NJEDA’s Board or the NJEDA’s Chief Executive Officer, as determined by the dollar amount of the potential award as it relates to the NJEDA’s internal Operating NJEDA Approval Levels, for a final decision to award the contract. The NJEDA’s Board of Directors or Chief Executive Officer will review

the final “Hearing Officer Report” and the Protestor’s “Exceptions to the Hearing Officer’s Report” and shall render a final decision regarding the appropriateness of the award. The action of the NJEDA’s Board or Chief Executive Officer, to make a final decision for the award of the contract will be a final NJEDA action that is appealable to the Appellate Division of the Superior Court of New Jersey.

It is the NJEDA’s intent not to award the contract until it has completed all of the review procedures described above. If, however, in the NJEDA’s sole discretion, it is determined that such an award is necessary to support the uninterrupted and efficient business operations of the NJEDA, the contract may be awarded.

m. Minimum Affordable Housing Set Aside Requirement

At least 20% of the total units must be reserved for low- and moderate-income housing as defined by New Jersey’s Uniform Housing Affordability Controls (UHAC) at the time the Project is placed in service (for unsubsidized project) or as required and imposed by governmental financing source. If affordability requirements conflict the stricter of the two sets of regulations shall apply.

For evaluation and scoring purposes, NJEDA shall use the UHAC definitions outlined in the Fourth Round effective December 15, 2025 found at:

https://www.nj.gov/dca/hmfa/about/uhac/docs/Current_UHAC_Regulations.pdf

n. Minimum NJT Parking Requirement

Proposal must provide a detailed explanation of how the Respondent will comply with the local zoning ordinance regarding parking for the Project AND provide adequate parking for riders of NJT. Explanation should include the total number of parking spaces available, the number reserved for the residential units, if any, and the number of spaces available to NJT riders. Also reference above Section 7.3.2.

11.0 REAL ESTATE TRANSACTION AGREEMENTS

The successful Respondent will be required to enter into a form of Real Estate Transaction Agreement(s) satisfactory to NJEDA. Respondents should refer to the Real Estate Transaction Agreement(s) attached as Exhibit B-1 and Exhibit B-2.

Note: All terms and conditions required of the successful Respondent with respect to the Purchase or Ground Lease of the Property are contained in the Real Estate Transaction Agreement(s).

11.1 QUESTIONS REGARDING THE REAL ESTATE TRANSACTION AGREEMENTS

Respondents are encouraged to carefully review the Real Estate Transaction Agreement(s) and must indicate any exceptions to the form of the agreement during the general information question and answer period for the prior to Proposal submission.

NJEDA will be under no obligation to grant or accept any requested changes to the Real Estate Transaction Agreement(s).

NJEDA will revise the terms and conditions and sales as deemed appropriate in its sole discretion to maximize the value to the State as well as to ensure an equitable process that will allow for a timely and successful closing of the sale and redevelopment of the Property.

If NJEDA does accept a change, it will be indicated on its website. If proposed changes are not accepted, Respondents must not include them again in the Proposal response or the Proposal will be deemed non-responsive.

Questions regarding the Real Estate Transaction Agreement(s) and exceptions or modifications to its mandatory requirements must be requested by the Respondent during the Electronic Question and Answer Period and should contain the Respondent's suggested changes and the reason(s) for the suggested changes. NJEDA shall be under no obligation to grant or accept any requested changes (i.e., exceptions taken) to Real Estate Transaction Agreement(s) and will post all answers in an Addendum. Exceptions and/or modifications to the terms of the RFQP and Real Estate Transaction Agreement(s) submitted with bidding package, after the expiration of the Question-and-Answer Period, will render bidding package non-responsive and result in the rejection of the Respondent's bid.

11.2 MINIMUM ACCEPTABLE OFFER

- The minimum acceptable bid for a fee simple Purchase of the Property is \$6,820,000 as the Property's appraised value.
- Annual Base Rent shall be at least 10.00% of the Purchase Price, where the Purchase Price equals the sum of (i) the net present value of remaining Base Rent and (ii) 95.00% of the Premises' appraised value at Closing.

Any Respondent that submits a bid for the Property that is less than the minimum acceptable bid amount will be rejected as non-conforming.

11.3 BEST AND FINAL OFFERS (BAFO)

After evaluating Proposal, the NJEDA may enter negotiations with one Respondent or multiple Respondents. The primary purpose of negotiations is to maximize the NJEDA's ability to obtain the best value based on the mandatory requirements, evaluation criteria, and cost. Multiple rounds of negotiations may be conducted with one Respondent or multiple Respondents. Negotiations will be structured by the NJEDA's Real Estate Development Division to safeguard information and ensure that all Respondents are treated fairly.

Similarly, the NJEDA's Real Estate Development Division may invite one Respondent or multiple Respondents to submit a best and final offer (BAFO). Said invitation will establish the time and place for submission of the BAFO. Any BAFO that is not equal to or higher in price than the

pricing offered in the Respondent's original Proposal will be rejected as non-responsive and the NJEDA will revert to consideration and evaluation of the Respondent's original pricing.

If required, after review of the BAFO(s), clarification may be sought from the Respondent. The NJEDA's Real Estate Development Division may conduct more than one round of negotiation and/or BAFO to attain the best value for the NJEDA.

Negotiations will be conducted only in those circumstances where they are deemed to be in the NJEDA's best interests and to maximize the NJEDA's ability to get the best value. Therefore, the Respondent is advised to submit its best technical and price Proposal in response to this RFQP since the NJEDA may, after evaluation, make a contract award based on the content of the initial submission, without further negotiation and/or BAFO with any Respondent.

All contacts, records of initial evaluations, any correspondence with Respondent related to any request for clarification, negotiation or BAFO, any revised technical and/or price of Proposals, the Evaluation Committee Report and the Award Recommendation, will remain confidential until approved by the Board, if applicable, and/or a notice to award a contract is issued.

NOTE: If the NJEDA contemplates negotiation, Proposal prices will not be publicly read at the Proposal submission opening. Only the name and address of each Respondent will be publicly announced at the Proposal submission opening.

12.0 SELECTION OF AWARD

The Agreement award shall be made with reasonable promptness by written notice to the responsible Respondent, whose Proposal, conforming to this RFQP is most advantageous to the NJEDA, price and other factors considered, as determined by the NJEDA in its sole discretion. Any or all Proposals may be rejected when the NJEDA determines that it is in the public interest to do so.

The final Agreement shall consist of this RFQP, any addenda issued to this RFQP, the Respondent's response, and the Purchase or Ground Lease Real Estate Transaction Agreement, with any amendments agreed upon by the parties. The NJEDA reserves all rights to reject any and all responses based upon exceptions taken to the Agreements.

It is the policy of the NJEDA that to be considered for award, a Respondent should achieve a minimum score of 0 out of a maximum overall score of 100. The NJEDA shall be under no obligation to make an award to an entity which does not achieve this minimum scoring threshold.

Award of the Agreement for the sale of the Property outlined in this RFQP will be subject to the selected entity entering into the form of Real Estate Transaction Agreement(s). Respondents should refer to the Real Estate Transaction Agreement(s) attached to this RFQP. Respondents are encouraged to carefully review the Real Estate Transaction Agreement(s) and must indicate any exceptions taken to the form of Agreement, only during the Question and Answer period described in Section 5 above.

Exceptions and/or modifications to the terms of the RFQP, REAL ESTATE TRANSACTION AGREEMENT(S) submitted with the Proposal, subsequent to the expiration of the Question and Answer Period, will result in the rejection of the Respondent's Proposal.

The Respondent is cautioned that it shall not impose conditions under which it will conduct business with the NJEDA by submitting its own separate and distinct company "Standard Terms and Conditions", engagement letters, agreement(s), master agreements or forms in response to this section requirement. The Respondent shall not submit its company "Standard Terms and Conditions" with the Proposal, as they will not be considered. Acceptance of a Proposal and award of an Agreement is subject to the approvals in Sections 17.0 and 18.0.

12.1 EXECUTION OF THE AGREEMENT WITHIN TIME PERIOD

The successful Respondent shall be required to execute the Real Estate Transaction Agreement and return an executed copy with the required deposit to NJEDA within thirty (30) business days.

12.2 AWARD TO NEXT HIGHEST RESPONDENT

If the Real Estate Transaction Agreement cannot close with the successful Respondent, NJEDA, in its sole discretion, reserves the right to award the property to the next highest scoring Respondent from the last round of bidding and if that negotiation is not successful, in its sole determination, NJEDA may either continue to pursue a sale to one of the other Respondents from the last round of bidding or undertake a new Proposal submission process for the Property.

13.0 ENVIRONMENTAL DUE DILIGENCE

The successful Respondent shall be authorized to conduct environmental due diligence within the Real Estate Transaction Agreement's specified due diligence period. Any environmental due diligence performed by the successful Respondent shall be done solely at its own cost, and associated reports shall be the property of NJEDA and may be shared with other Respondents if NJEDA so chooses. On site due diligence needs to be scheduled through NJEDA post execution of the Real Estate Transaction Agreement.

14.0 DEVELOPMENT SUBJECT TO STATE AND LOCAL ZONING REQUIREMENTS

The Property development will be subject to state, local zoning requirements and planning board approvals. Prior to closing, the successful Respondent shall be required to seek designated redevelopment status from the City of Linden.

For Ground Lease scenario only, Ground Lease improvements will not be subject to local zoning or planning because NJEDA continues to own the land. The improvements are subject to Capital Plan review under the City of Linden land use law.

If requested by NJEDA, Respondents shall make community presentations in the City of Linden

(location to be determined) regarding their proposed Project.

15.0 REVIEW COMMITTEE APPROVAL

The Proposal submission, final Purchase or lease price and terms of the Real Estate Transaction Agreement for the disposition and sale of the Property will be presented to the Review Committee for approval.

16.0 NJEDA BOARD APPROVAL

After approval by the Review Committee, the Proposal submission, final sale price and terms of the Real Estate Transaction Agreement for the disposition and sale of the Property shall be presented to the NJEDA Board for its approval.

17.0 PROTEST OF RECOMMENDED AWARD

Any Respondent may protest a selection (an award) by the NJEDA. In order for a protest to be timely, it must be submitted to the Chief Administrative Officer within ten (10) business days of receipt of the notification that the Respondent was not selected. In order to be considered complete, a protest must: (i) identify the Respondent that is submitting the protest, (ii) identify the contract award that is being protested, (iii) specify all grounds for the protest (including all arguments, materials and/or documents that support the protest); and, (iv) indicate whether an oral presentation is requested, and if so, the reason for the oral presentation. A Hearing Officer will be designated by the NJEDA's Chief Administrative Officer. The designated Hearing Officer will review all timely and complete Respondent protests and will have sole discretion to determine if an oral presentation by the protester is necessary to reach an informed decision on the matter(s) of the protest.

After completing his or her review of the protest, the Hearing Officer will prepare a preliminary report, which shall be advisory in nature and not binding, and send to the Protestor. Should the Protestor dispute the findings of the preliminary "Hearing Officer Report", it will be afforded an "Exceptions Period" equal to ten (10) business days from the NJEDA's issuance of the preliminary "Hearing Officer Report" to refute the findings of the Hearing Officer. At the expiration of the exceptions period, the Hearing Officer will review any "Exceptions to the Hearing Officer's Report" and finalize his or her report.

The Hearing Officer will make a recommendation in his or her final "Hearing Officer Report" which will be sent with any "Exceptions to the Hearing Officer's Report" to either the NJEDA's Board or the NJEDA's Chief Executive Officer, as determined by the dollar amount of the potential award as it relates to the NJEDA's internal Operating NJEDA Approval Levels, for a final decision to award the contract. The NJEDA's Board of Directors or Chief Executive Officer will review the final "Hearing Officer Report" and the protestor's "Exceptions to the Hearing Officer's Report" and shall render a final decision regarding the appropriateness of the award. The action of the NJEDA's Board or Chief Executive Officer, to make a final decision for the award of the contract will be a final NJEDA action that is appealable to the Appellate Division of the Superior Court of New Jersey.

It is the NJEDA's intent not to award the contract until it has completed all of the review procedures described above. If, however, in the NJEDA's sole discretion, it is determined that such an award is necessary to support the uninterrupted and efficient business operations of the NJEDA; the contract may be awarded.

18.0 CLOSING

The closing of the Property shall take place after the awardee secures all necessary approvals and permits. The Real Estate Transaction Agreement(s) outline the conditions of closing of the Property.

19.0 STANDARDS PROHIBITING CONFLICTS OF INTEREST
